WAP DRS adds value to your DVD rental business by giving customers access to your service core functionality from the convenience of their mobile handsets (search, sign in, rent, manage queue). This opens your business up to a whole new marketing channel and revenue generating opportunities. Application can be integrated to any DVD Rental website. WAP DRS will work on a mobile phone or PDA that supports protocol WAP (v1.0-2.0) and which has internet access via GPRS, EDGE, 3G or Wi-Fi. WAP DRS gives you increased interactivity opportunities to boost liquidity by maintaining full rental queues, enhances competitive strength of your service. Price attractive.
