Webinsta Mailing List Manger

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Webinsta Mailing list manager was built to provide a centralized mailing list / newsletter system for small to medium website . Its simple yet quite powerfull . It support the standard subscribe and un subscribe , remote verification , unsubscribe links , no timeouts , import email , Graphical HTML templates , Multilanguage (English , Dutch , Swedish etc) and other such features , multi group , connectivity to other scripts like phpnuke , phpbb , drafts alsoo suported . The best of all the total integration is less than 2 lines of code and can run with (multi database support) or without a database and aimed at a non programmer .
