

Who's Connected

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Who's Connected is a set of two small PHP scripts that use MySQL to display the number of users who have viewed a page within the last minute (can be modified). First script will add the connection to a table in MySQL. The second script will display the number of users.
