Wordpress Who's Online Plugin

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

A new plugin that displays who is currently viewing your wordpress blog. The package also includes a sidebar widget for users of your blog to see how busy the blog is. Within the admin panel you can see exactly who is online as well as how long they have been online for, what page they are viewing and how many page views they have had. The script also checks to see if the user is a bot and displays this information if they are. With version 0.1.5 we now fully support internationalization with translations provided for English, French, Finish and Swedish,
