WP ERP aims to simplify all your enterprise business requirements, making your company efficient with real-time reports and ensuring data flow a breeze with centralized management. We want you to be better managed, away from errors, and prepare your company for the next leap with our solution. With little workforce and a tight budget, you need to wisely use your human resources and make time-sensitive efforts to get your business booming. Or, if you have a long body of work distributed to another enormous body of employees, your attention needs detail to specifics and view progress overall. For a company, teamwork is the key, and we put it to top priority in our ERP philosophy. It would be best if you become a zen master within a storm. WP-ERP calms the storm. Most offices are now distributed across cities-countries with a flexible number of employees and contributors. Managing hundreds of users with different access roles, checking their progress, and integrating is streamlined with this application. Save a massive load of reviewing and auditing, pushing people for supervision, and make things simpler by allowing workers to manage their work with clarity. For a company, small or large, that needs a breakthrough, WP-ERP is the solution to collaborate, stay organized, and mitigate losses. Our Specialities: 1. ERP core plugin is free. You only pay for components, support, and updates. 2. Fast and Real-time. Even faster with a personal hosting server. 3. Ease of access. Accessible from any platform or device. 4. Ease of use. Intuitive and requires almost no training for the user. 5. Cloud-based. Never lose data and keep everyone synced. 6. Secure according to WordPress standards, and your data stays with you. 7. Lightweight and divided into Components. So, companies can expand their ERP system in a step-by-step process. 8. Industry-specific customizations are readily available and even easier to modify. 9. No maintenance is required. 10. Open-source. Development and customization become easy. 11. Streamlined for Collaboration and Teamwork. Easily share, track time, and review projects with co-workers. 12. Privacy at every level of work. 13. Best accounting component on the market.
