# Zones Manager Magento Extension

| | |
|---|---|
| **Address** | {value_address} |
| **Contact Person** | {value_contact_person} |
| **Mobile Number** | {value_mobile_number} |
| **Email** | {value_email} |

Enables to create and manage geo zones with their own settings. It assigns the customer to a certain zone depending on his / her place of residence. For each zone the next options can be defined: minimum order amount, product prices, catalog price rules, allowed stores, currencies, payment methods, shipping methods, catalog categories and products.
